We strongly believe that children should practice hunting sports under the authority of their parents. In light of that, at least one parent (or legal guardian) **is required** to attend and participate in our Family Field Day with his/her child. It is important that the parent(s) and child(ren) remain together through the entire day for safety and educational purposes. Not all participants will want to actively engage in all activities, but can still gain knowledge of those activities by attending the seminars offered. Older teens (15+) may attend without parents as long as parental permission and the liability waiver is signed.
